Explanation - This amendment switches funding for the additional 3 percent vacancy savings DP 8101 (page A-91 of the narrative) by increasing general fund by \$13,568 (\$6,778 in FY 2010 and \$6,790 in FY 2011) and reducing state special revenue by the same amounts.

Passage and approval of HB 82 that revised the deposit of stranded 911 funds switched the funding for 911 portion of the Information Technology Services Division of the Department of Administration to funding from state special revenue. DP 8101 was funded prior to passage and approval of DP 8101 when the program was funded with general fund. This funding switch aligns the funding for the program with the funding switch accomplished by DP 6102 (page A-90 of the narrative) that established funding under the assumption of passage and approval of HB 82.
